PROJECT EXPERIENCE

M&M Vet Clinic App (Collaborated with Cohort)

Build with: React, TypeScript, Custom API
Node, Express, Axios, MongoDB, Firebase,
HTML, CSS

Live Demo: <https://mm-vet-app.web.app/>

Vet Clinic App : Interact with a customer portal application for a fictional veterinary clinic allows existing customers to log in and view their information on file with the clinic.

Street-Thai-Restaurant App

Build with: JavaScript, HTML, and CSS

Live Demo: <https://minimomo14.github.io/street-thai-restaurant/>

This project is not just about creating a digital space for authentic Thai street food; it's a representation of my lifestyle and a celebration of the culinary treasures from my home country! It's also responsive web design, UX/UI practice for the best user interaction.

Quote Generator App

Build with: JavaScript, HTML, and CSS

Live Demo: <https://minimomo14.github.io/Quote-Generator/>

This project is part of my self-learning journey in JavaScript. I created this Quote Generator App to practice and improve my skills in front-end development. Features: Random Quotes: Display a random quote each time the user interacts with the app. which the app also allow users to share their favorite quotes on social media.
